

# *Critters for the Cure*

*“Together we CAN make a difference... Until we LICK women’s cancer”  
Serving MD, VA and DC*

[www.crittersforthecure.org](http://www.crittersforthecure.org)

# What does CFTC do?

- ▶ Critters for the Cure helps breast, ovarian and other gynecological cancer survivors during their cancer battle, and afterwards, to get back to their usual lives.
- ▶ The support they provide is not only financial, to help women pay their bills, but also physical, mental and emotional help.
- ▶ CFTC will help survivors build a bridge to the life ahead. They will help you prepare for job interviews, give tips to write your resume, and direct you to other cancer survivor services, such as other places to apply for grants, and places to go for exercise and nutrition classes.

# Why was CFTC formed?

- ▶ CFTC was formed to help women SUR-THRIVE cancer and live life beyond this disease.
- ▶ “Critters” was named because of the unconditional love that our pets provide and how they help us survive during tough times.
- ▶ The founder started CFTC when her best friend’s cancer jumped from stage I to stage IV. Her standard poodle, Molly, was by her side for much of the time she battled breast cancer.

# How do I donate?

- ▶ Go to their web site [www.crittersforthecure.org](http://www.crittersforthecure.org) and *click* on donate on the left menu bar or purchase tee-shirts, bracelets, a 2014 calendar or dog or cat collars and other cool stuff from their store online.
- ▶ No one in this organization makes a salary. Everyone is a volunteer. More than 85% of the donated dollars and purchases go towards helping women battle this disease and live life to the fullest.
- ▶ CFTC...Navigating life beyond cancer...one woman at a time!
